WONDERS COLLECTION

Nature offers us a huge variety of precious and semi-precious stones, to which are added ornamental gems of organic origin such as pearls, coral and amber.

All these materials are formed thanks to a natural, mineral or biological process and being particularly rare, their value becomes very high.

The fabrics of the new **Wonders** collection proposed by CTA® are the expression of preciousness, elegant beauty and at times romantic.

Characterized by natural and bright colors, soft shades, able to make any environment welcoming and sophisticated and aimed at embracing the different needs of Interior.

CORALLO

Coral is not a real stone but a magical product of nature. Also called sea tree, coral is the colorful skeleton of marine animals, which live fixed to the bottom and become hard as stones.

Coral gives its name to this line of curtains, a fil coupé jacquard linen blend made of 60% LI 20% PL 20% CO.

Available in four shades of colors, such as natural, dove gray, light gray and dark gray, in width 300/305 cm.

GIADA

Jade is the most appreciated gem of oriental culture, so much that in China it is customary to give a jade object to an unborn child as a wish for prosperity.

Giada, decorative curtain in 66% CO 24% PL 10% LI proposed by CTA®, is a fil coupé with a graphic design that creates an alternation of voids and solids with four nuances of natural and earth colors, in width 300/305 cm.

IOLITE

Iolite owes its name to the Greek word *ios*, which means violet, which is the color of the stone when it is cut correctly.

The colors range from purple to various shades of blue or yellow.

The **Iolite** curtain is a plain fabric in 100% PL, made with an innovative processing technique that gives it a fabulous softness, comparable to a more precious fiber such as modal. Available with a palette of 23 different colors, in width 315/320 cm eco lead.

LARIMAR

Larimar is a stone that comes from the Dominican Republic, it is of volcanic origin, green and blue in color with white inclusions.

The **Larimar** fabric line is inspired by the exclusivity of this stone, homonymous, modern and glamorous with a checkered structure, which intertwines opaque and shiny, thick and thin yarns, in 100% PL.

It has 22 color variations, in width 295/300 cm eco lead.

OPALE

Opal, unique among gems, has an exceptional play of colors: red, yellow, green, blue, light blue and purple can appear in a single range.

Indian mythology considered the opal a transformation of the rainbow goddess.

The **Opals** curtain in 100% PL, releases freshness and dynamism, with a tightly woven hemp linen effect, suitable for decorations and curtains, made in width 295/300 cm eco lead, suitable for all types of environments. Available in 21 color variations.

QUARZO

Quartz is the mother rock of planetary materials, it is found everywhere on our planet. It is extracted in quarries or by hand, there are many varieties for gem use.

CTA® proposes the **Quarzo** curtain, an embroidered linen blend (55% PL 45% LI) with a romantic geometric design, stylized circles with a three-dimensional effect.

We find it in two color variants, white and natural in width 325/330 cm.

RAME

Copper was the first material to be used by man. It usually occurs in threads, sheets or compact masses, in boulders or grains.

The **Copper** item is a 100% Trevira CS curtain. Its fine lines create a net effect alternating with uniform and transparent lines, for a fabric with a rich and refined look.

The palette is developed in five metallic color variations, ideal for modern architecture. Available in width 305/310 cm.

RUBINO

Ruby is a stone known for its priceless red color.

Ancient civilizations considered ruby the queen among precious stones, just as precious is the curtain proposed by CTA®, for the Wonders collection.

Delicate and soft to the touch, **Rubino** is a shappe canvas curtain, shaved, made of 80% PL 20% SE, presents a folder with five purely neutral color variations, we find it in width 325/330 cm.

SMERALDO

Emerald is one of the noblest stones in nature, its color has always been the symbol of serenity, of hope.

CTA® proposes the **Emerald** article, a warm wool-effect fabric in 85% PL 15% SE and 93% PL 7% SE.

Available in four shades that touch the neutral colors from white to gray and from beige to dove gray.

The curtain is width 325/330 cm.

TOPAZIO

Topaz is a rare, fascinating and particularly precious stone for its soft and delicate colors and intense luster.

Topazio is an elegant plain curtain, soft to the touch, characterized by a weave of weft and warp, in 59% LI 41% PL.

Made in width 315/320 cm, it is available in 5 colors: white, natural, beige, dove gray and gray.
